Professional Summary

Results-driven Software Developer with 3+ years of experience building scalable, user-centric web and mobile applications. Proficient in modern development frameworks, programming languages, and DevOps practices, with a proven track record of delivering innovative solutions that enhance business performance. Skilled in collaborating across teams using Agile methodologies to achieve project objectives. Currently expanding expertise with certifications in CompTIA Network+, CCNA, and A+.

Certifications

- **CompTIA Network+** *(in progress)*
- **Cisco Certified Network Associate (CCNA)** *(in progress)*
- **CompTIA A+** *(in progress)*

Education

The Academy South of Florida – Miami, Florida
Network Technician (Expected 2024)
Relevant Coursework: IT Support Fundamentals, Networking Essentials, TCP/IP Protocols, Operating Systems

Ecole Supérieure D'infotronique d'Haïti – Port-au-Prince, Haiti
Bachelor of Computer Science (2017 – 2021)
Equivalency: *Bachelor of Computer Science by World Education Services*

Technical Skills

Programming Languages: Java, Python, JavaScript, TypeScript,
Frameworks & Libraries: React, Redux, Vue.js, Laravel, Node.js, Express.js, Next JS
Web Development: HTML, CSS, Bootstrap, SASS/LESS, Responsive Design, REST APIs, Axios, JSON
Database Management: MySQL, PostgreSQL, MongoDB, SQL Server, SQL Lite
DevOps & Tools: Docker, Kubernetes, Git, Linux, Jira
Testing & Debugging: Test-Driven Development (TDD), Agile/Scrum
Soft Skills: Problem-solving, communication, teamwork, collaboration, OOP, SOLID principles, design patterns, Microsoft Excel, Web Service,

---

Professional Experience

Freelance Developer *(07/2023 – 04/2024)*

- Designed and optimized a photography website using React, PHP API, Redux, and Axios, improving user engagement by 20%.

- Developed a feature-rich e-commerce platform with React and Redux, resulting in a 15% increase in client sales.

- Conducted performance optimization and debugging to enhance website reliability and speed, achieving a 30% faster load time.

Web Developer – Hopital Web HT *(08/2021 – 04/2023)*

- Developed and maintained a healthcare management platform using PHP, JavaScript, and Bootstrap, improving system usability for over 500 users.

- Built RESTful APIs with AJAX and JSON to enable efficient client-server communication.

- Enhanced user engagement through interactive web interfaces and responsive design.

- Worked closely with product teams to ensure web applications met technical and business requirements.

Projects

School Management System *(August 2024 – Ongoing)*

- Built a comprehensive web-based system with Laravel and React, streamlining administrative workflows by 25%.

- Utilized Redux for state management and MySQL for efficient database handling.

To-Do List Application *(April 2024)*

- Developed a dynamic task management tool with Laravel API and React, incorporating a modern, intuitive user interface.

- Improved performance and scalability by optimizing database queries.

Quote Generator

- Developed a dynamic task management tool with API and React, incorporating a modern, intuitive user interface.

Portfolio with animation

- Developed with React and Framer motion

Languages

- French (Native)

- Haitian Creole (Fluent)

- English (Professional Proficiency)
